About Singakwazi Print

From the ashes of Four Colour print and 30 years of print experience, rises Singakwazi Print.

What started as primarily a lithographic print entity has since evolved into an integrated print solutions provider encompassing Lithographic, Digital, Large-format and print finishing.

Our 3600 square meter production facility is based in Johannesburg South Africa from where we service several clients throughout Gauteng, South- and Southern Africa and Europe. We have serviced some of our clients for over 25 years and gain new clients regularly.

Our commitment to creating a value proposition for every client has culminated in unprecedented growth, allowing the company to expand and reinvest in both capital expenditure and staff development. Our portfolio of clients includes SME's, NGO's, Government, Corporates, National and Multi-National organizations and we are preferential suppliers to many.

Our seamless integration of the production process facilitates high quality printed products across a range of media and substrates to offer our clients the best value proposition available. Exacting standards, attention to detail and a commitment to exceptional service levels is the foundation of our company.

Singakwazi, an isiZulu word meaning "We can" and yes, we can!

Message from the Directors

Nomsa says, "We all about growth! This starts by exposing all our staff, starting with senior management, to both in-house and external development. This ensures that we not only maintain our service levels and quality but also grow our company in terms of sales and profitability.

Johann says, "We say we can, and we will! Its not a matter of trust, it's a matter of honesty. We have a great team, who are all committed to holding up the values of the company and meeting our vison and mission.
